SupplyLocker

SupplyLocker™ is the industrial solution to manage consumable and returnable tools, supplies and other assets. Its custom design lets you configure each system to meet your facility requirements.

SUPPLYLOCKER DELIVERS

- Access products through the easy-to-use on-screen interface
- Individual door control according to usage requirements, such as whether the item is returnable or not, loan periods for check-in/check-out, automated lock-down, employee access, etc.
- Full usage audit trails – see item, who used it and where it was used
- High capacity storage in a small footprint

FEATURES

- Mix and match door sizes for a custom solution
- Available with SupplyLink™ as a stand-alone main unit or auxiliary
- Standard LED lighting is 4x the lumens of competitive products
- Optional features include panel knock-outs to allow for charging inside the door
- Control assets that need calibration or inspection
- Monitor calibration status and lock down tools by either number of uses, number of days, due date – or any combination thereof
- Automated alert notification when a warranty date is reached
- Users can lock-down tools that are not reusable and a notification is sent to management for repair
- A full audit history by asset and user

APPLICATIONS

Laptops • Abrasives • Adhesives • Sealants • Gauges
Maintenance Supplies (MRO) • Welding Supplies
Calibrated Instruments and Tools • Rechargeable Items
Personal Protective Equipment (PPE) • Security Items
Meters • Instrumentation Devices • And many more!

Install as stand-alone or as an auxiliary with other SupplyPro® Devices
