

SupplyScale

**AUTOMATED WEIGHT-BASED
DISPENSING WITH MANAGED
ACCOUNTABILITY**

Using industry leading weight-based sensing technology and our patented SecureBin™ system, SupplyScale® delivers absolute accountability at the item level with amazing ease-of-use. SupplyScale quickly and accurately calculates the number of items taken, returned, or restocked, with no repackaging or tagging needed.

SUPPLYSCALE DELIVERS

Quick and easy access

- Intuitive menus and prompting mean minimal steps for set-up and load
- Eliminate individual item counting for rapid refill

Improved accountability

- Extremely accurate
- Locked covers on every bin

Outstanding value

- Manage higher quantities of smaller items more cost effectively
- Lower cost of ownership than other options

FEATURES

- Inventory count automatically adjusted upon completed transaction
- Pick-to-light functionality on all drawer and bin locations
- SecureBin™ locking system on every bin cover lid
- Supports multiple lid and drawer depth configurations
- Minimal calibration maintenance

APPLICATIONS

Fasteners • Fittings • Welding Supplies • Cutting Tools
Spare/Critical Parts • Electrical Connectors and Terminals
Sensors • Safety Equipment • Bearings • Abrasives
Switches • Tool Return Verification • Nuts, Bolts, Rivets
Consumables • Valves • Bin Stock • And many more!
